

The Professional-Series T/TB Precision for the Laboratory

T/TB -Precise and Reliable in daily working routines

Daily work in the laboratory requires exact, sturdy and easy-to-use equipment. The consequent implementation of these particular characteristics makes the TB/T-Series the perfect balance for the Laboratory.

Accurate and fast: The new generation of monolithic weighing systems measures still faster. The internal calibration in the TB-line, activated by a push of the bottom guarantees always reliable weighing results.

Convenient: The clear display and the ergonomic key pad with huge, clear function keys offers easy operation at any time.

Flexible: The compact dimensions of the TB-Series requires only little space. Pans and draft shields offer sufficient room for larger container. Balances are initially verified by the manufacturer and can be used as legal measuring instrument..

Robust: The well-engineered construction is designed for a long lifetime. The monolithic weighing system is well overload protected and maintenance -free. 2 Years warranty.

ISO: Production according ISO-standards ISO 9001 : 2000 and ISO 14001.

GLP/GMP: The GLP/GMP-protocol can be obtained with an optional printer. Easy connection via the standard RS232-Interface.

Price-conscious: Excellent value for your money. State-of-the-Art production methods guarantees best quality and consequent reasonable prices.

Valuable Applications:
17 different weighing units, %-Weighing, Average weighing, Formulation, Counting

Model	Readability	Weighing Range	Pan size	Calibration
TB-215D	0,00001/0,0001 g	60 / 210 g	80 mm	Internal
TB-214	0,0001 g	210 g	80 mm	Internal
TB-124	0,0001 g	120 g	80 mm	Internal
TB-403	0,001 g	400 g	115 mm	Internal
TB-203	0,001 g	200 g	115 mm	Internal
TB-4002	0,01 g	4000 g	150 mm	Internal
TB-2002	0,01 g	2000 g	150 mm	Internal

All models are equipped with internal calibration.

Model	Readability	Weighing Range	Pan size	Calibration
T-214	0,0001 g	210 g	80 mm	External
T-124	0,0001 g	120 g	80 mm	External
T-403	0,001 g	400 g	115 mm	External
T-203	0,001 g	200 g	115 mm	External
T-4002	0,01 g	4000 g	150 mm	External
T-2002	0,01 g	2000 g	150 mm	External

Automatic calibration and adjustment with an external weight in all T-series models.
